

**SENATE BILL 613 – ELECTRICITY – COMMUNITY SOLAR ENERGY GENERATION SYSTEMS PROGRAM**

**FAVORABLE with AMENDMENT**

**SENATE ENERGY, EDUCATION, AND THE ENVIRONMENT COMMITTEE**

**February 28, 2023**

NRG Energy, Inc. (“NRG”) submits these comments in **support** of **SB 613 – Electricity – Community Solar Energy Generation Systems Program**.

NRG is the leading integrated energy and home services company powered by its customer-focused strategy, strong balance sheet, and comprehensive sustainability framework. A Fortune 200 company, NRG brings the power of energy to millions of North American customers. Our family of brands help people, organizations and businesses achieve their goals by leveraging decades of market expertise to deliver tailored solutions. Our retail brands serve more than six million customers across North America, including here in Maryland, where NRG owns seven companies that are licensed by the Public Service Commission to serve retail customers.

The NRG retail companies are committed to delivering value added products and services – including access to community solar subscriptions – to our customers. SB 613 will make that easier by enabling customers receive a single bill that includes both their community solar subscription charges, as well as their electricity supply and delivery charges, from the regulated utility.

NRG supports SB 613 because it ensures that customers have the best experience possible when exercising their right to choose their energy supply services, including community solar. NRG has long advocated for policies that enable customers to receive a single bill from their energy supplier. In fact, in response to a request from NRG and other suppliers, the PSC took action to make Supplier Consolidate Billing (SCB) a reality by the end of 2023. Under SCB, suppliers will gain the ability to offer a consolidated bill that includes not only their supply charges, but also the regulated utilities’ delivery charges, and other value-added service charges – including community solar fees and credits – if they so choose. Consolidated bills are essential to meeting customers’ expectations. Customers prefer a single bill for both its convenience and because it enables them to understand their energy purchasing decisions more easily.

While SB 613 will ensure that customers receiving utility consolidated bills enjoy the convenience of a single bill that they demand, NRG offers an amendment aimed at ensuring that collection of electricity supply and delivery services charges are not impacted by the addition of community solar subscription charges to the utility bill.

Thank you for the opportunity to share our perspective on SB 613 and for the above reasons NRG urges the Committee to amend the bill and give it a **favorable** report.

Proposed Amendment:

Page 3, line 13, after "COORDINATOR." insert:

(III) REMITTANCE OF ELECTRICITY DELIVERY AND SUPPLY CHARGES SHALL SUPERSEDE THE REMITTANCE OF SUBSCRIPTION CHARGES; AND

(IV) A CUSTOMER'S ELECTRICITY SERVICE MAY NOT BE TERMINATED FOR NONPAYMENT OF SUBSCRIPTION CHARGES.
