

Dear Members of the Senate Finance Committee:

My name is Renee Z. In August 2022, I experienced over \$3,000 in Supplemental Nutrition Assistance Program (SNAP) benefits stolen from my Electronic Benefits Transfer (EBT) card. I shared my experiences with the Baltimore Banner and This American Life and the links are below. I support Senate Bill 2 because we need better security of EBT cards to prevent this from happening to other families. I had waited several months to receive SNAP due to agency errors in handling my case, only for my benefits to be stolen shortly after they were deposited on my card. I still have not been reimbursed. I know there is federal legislation to replace SNAP benefits, but I would not be covered by that since the replacement of benefits under federal legislation only begins October 1, 2022.
