

HB0119 – UNFAVORABLE

This bill does not promote good science in education. Students should be spending time learning about taxes and financial matters that will impact them for life instead of popular gender ideologies that change day to day.

This bill also infringes on parental rights to have a say in what is taught in their schools by overriding their school boards and committees where these types of decisions belong. Let parents be involved in these decisions locally and kill this bill.

Thank you,

Jessica Helms
