

To Whom It May Concern,

I was hired by the Maryland Transportation Authority Police in December 1986. I was offered Prescription, Medical, and Dental Plans as part of my package. It was explained once I invested in 5 years of service that this package would continue without interruption the rest of my life unless I chose to cancel it. I worked 26 years of service in the Police Department and retired in February 2013 as a 1<sup>st</sup> Sergeant. I feel the impact of losing my Prescription Plan Benefits Coverage would have a long-lasting impact upon my health, and mental attitude, and could cause premature Death. We are already in times of Economic Hardships. Please, give us Peace of Mind on this HB0670! I have Retired in Good Standing and was loyal to my Employer and the State of Maryland. Now the State of Maryland needs to uphold its part of the bargain and remain Loyal to Us.

Thank You,

Michele Ann Hinchliffe
