## ROCKVILLE: 240-777-6550

ANNAPOLIS: 240-777-8270

SB 1026 DATE: March 6, 2024 SPONSOR: Senator Brooks ASSIGNED TO: Education, Energy, and the Environment CONTACT PERSON: Kathleen Boucher (Kathleen.boucher@montgomerycountymd.gov) POSITION: Support with Amendments

## County Boards of Education – Budgets – Notice (Transparency in Education Spending Act)

The Montgomery County Executive and County Council strongly support this bill with amendments that further enhance oversight and accountability for federal, State, and local education funding provided to school systems. The amendments would further the goal of ensuring sufficient structure and clarity to enable county governments to fully assess how public funds support educational outcomes during the budget process, throughout the applicable fiscal year, and over the long haul.

The bill ensures that counties receive timely information before making annual budget decisions about: (1) current funds held in reserve; (2) the amount of any federal funds received in the prior fiscal year; and (3) the amount of funds held in trust or otherwise dedicated for long-term obligations for retiree health care costs or other post-employment benefits. The bill also seeks to enhance county oversight of school system spending throughout the fiscal year by requiring advance approval of a transfer of funding between major budget categories when the transfer exceeds 1% of the total funding appropriated to the category. Although the new major budget categories and transfer requirements established in the bill would enhance county government oversight of school spending, more granularity regarding proposed funding and expenditures is needed to facilitate the type of oversight that would allow taxpayers to feel confident that counties have the tools necessary to ensure that education funding is spent efficiently and for the purposes intended.

**Table 7** from the fiscal year 2025 proposed budget for Montgomery County Public Schools (MCPS) is attached to this position statement. As required by State law, **Table 7** shows total funding for 14 major categories under Current Expense Funding. As the table reflects, the 14 major categories include total funding for the entire school system in each of the specified categories. It would further the goals of transparency and accountability tremendously to amend the bill to break out the following major categories to separately show total funding for Elementary Schools, Middle Schools, High Schools, Pre-Kindergarten, and

Other Costs: (1) Category 2 - Mid-level Administration (i.e., school-based administration); (2) Category 3 - Instructional Salaries; (3) Category 4 - Textbooks and Instructional Costs; (4) Category 5 - Other Instructional Costs; and (5) Category 6 - Special Education. Creation of these more granular major categories is a simple step that would help county governments better understand school system budgets.

Regarding transfers between major categories, it is important to note that some categories are so large that the 1% trigger for advance approval created by the bill for a transfer between categories would rarely be triggered. For example, total funding for Instructional Salaries (Category 3 under Current Expense Funding) for MCPS in fiscal year 2023 funding was \$1.114 billion. One percent of that total is \$11.14 million. Breaking out Categories 2-6 as discussed above into new major categories that disaggregate funding for Elementary Schools, Middle Schools, High Schools, Pre-kindergarten, and Other Costs would make the 1% trigger more meaningful.

Another significant problem that hamstrings county oversight of education funding is lack of sufficient details about new programs that are implemented each year. Specifically, county governments need to know whether new programs funded each year are successful and whether the school system decides to continue funding the program in future years or decides to reallocate funding to its base budget for a different purpose. With the State's major overhaul of its educational system well underway with implementation of the Blueprint for Maryland's Future, it is critically important for local governments to receive this type of information. This could be accomplished by amending the bill to require that an annual report be submitted along with the school system's proposed budget that details new programs and initiatives that are proposed to be implemented in the next school year, along with new programs and initiatives that were implemented in the past five school years. This kind of report should include the name of the program, current status (including number of students served, if ongoing), and current funding amount.

For all the reasons discussed above, the Montgomery County Executive and County Council respectfully request that the Senate Education, Energy, and Environment Committee give Senate Bill 1086 a favorable report with the requested amendments.

## TABLE 7 STATE BUDGET CATEGORIES AND SPECIAL REVENUE FUNDS SUMMARY

\*This report does not reflect \$134,668,027 of FY 2023 actual expenditures for non-budgeted grant programs and supplemental appropriations. A non-budgeted grant is funding MCPS receives for designated purposes that are not expected to be funded on an ongoing basis or at predictable levels. Non-budgeted grant expenditures also are not reflected on the relative summary of resources documents throughout this publication.
