RE: **HB 1168 / SB 1028 – The Green Death Care Options Act**

Dear Chair Feldman and Chair Pena-Melnyk:

I am writing to urge your committees for a favorable report on the Maryland Green Death Care Options Act.

From the perspective of a Marylander who cares about death care and would like to have this environmentally friendly option when I die, I believe there is no reason that natural organic reduction and water cremation should be withheld from Maryland families. Water cremation and NOR should be options for people who committed to a greener lifestyle before death because the environmental impact of conventional funerals is entirely avoidable with these better death care options. Now that so many other states have proven the science and reliability of these options, Maryland can have no excuse for lagging behind.

Please step up to support this legislation because it's the right thing to do for your constituents and for our beautiful state.

Sincerely,

A handwritten signature in black ink, appearing to read 'Mikol Bailey'. The signature is fluid and cursive, with a large loop at the end.
