Testimony in Support of
Senate Bill 367 - Natural Resources - Antlerless Deer Hunting Programs – Authorization
Senate Education, Energy and Environment Committee
February 13, 2024

The Rural Maryland Council supports Senate Bill 367 – Natural Resources – Antlerless Deer Hunting Programs – Authorization. Senate Bill 367 would allow the Department of Natural Resources to conduct an antlerless deer hunting program through a raffle permit system during the month of January as a means of reducing crop damage.

The primary objective of the Antlerless Deer Hunting Programs is to tackle the issue of overpopulation of antlerless deer (female deer). Since many hunters tend to hunt only for bucks (male deer), the population of antlerless deer has grown tremendously. The proposed Programs is organized exclusively for hunting antlerless deer, and its sole purpose is to reduce the overpopulation. The hunters who take part in the program can either keep the deer or donate it to the local food bank.

The overpopulation of white-tailed deer can be quite a detriment to rural communities, specifically farms, due to crop damage. The state of Maryland has a high density of deer to suitable habitat, which often leads to conflicts with farmers, vehicle drivers, and homeowners. During the Maryland Deer Summit (hosted on May 11, 2023, at the Maryland Department of Agriculture), it was estimated by the Maryland Farm Bureau that deer cause about \$50.00 in damage per acre, which could add up to \$55 million statewide. Add in neighboring states, where farmers also have problems with deer, and the number would be higher still. To control the overpopulation of deer, it is important to practice responsible hunting and utilize depredation permits. By doing so, we can help reduce the impact of deer on crops, vehicles, and homes.

The Rural Maryland Council respectfully requests your favorable support of Senate Bill 367.

The Rural Maryland Council (RMC) is an independent state agency governed by a nonpartisan, 40-member board that consists of inclusive representation from the federal, state, regional, county and municipal governments, as well as the for-profit and nonprofit sectors. We bring together federal, state, county and municipal government officials as well as representatives of the for-profit and nonprofit sectors to identify challenges unique to rural communities and to craft public policy, programmatic or regulatory solutions.
