RE: SB 1025 WRITTEN TESTIMONY OF SUPPORT

At OneEnergy, we are developing solar projects in Maryland that are creating jobs, increasing access to clean energy in underserved communities, and lowering energy costs. To date, we have developed more than 162 MW of energy, enough to power over 32,000 Maryland homes. Currently, a hodge podge of regulations have created a complicated regulatory landscape that make responsibly siting small community solar projects difficult. The current CPCN process is a particularly daunting avenue for development. Senator Brooks' bill, SB 1025, would make great strides to simplify the regulatory landscape and would bring the benefits of clean energy to more Marylanders. We are enthusiastic about what this bill will do to help ensure Maryland meets its clean energy targets and thank Senator Brooks for his leadership in introducing this critical legislation.

Respectfully,

JAKE KORNACK
DIRECTOR OF GOVERNMENT AFFAIRS
