## **House Bill 1318**

Solid Waste Disposal Surcharge and Wasted Food Reduction and Diversion Fund and Grant Programs –  
Established

Date: March 1, 2024

To: Environment and Transportation Committee

Position: **Favorable**

From: Matt Stegman  
MD Staff Attorney

---

Chesapeake Bay Foundation (CBF) **SUPPORTS** HB 1318 which establishes the On-Farm Organics Diversion and Recycling Grant Program in the Department of Agriculture to award grants to eligible entities for on-farm organics recycling and compost use, wasted food prevention, and food rescue; establishes a solid waste disposal surcharge of \$2 per ton of solid waste processed by a refuse disposal system for final disposal; and establishes the Wasted Food Reduction and Diversion Grant Program in the Department of the Environment.

### **Food waste affects climate change.**

The diversion of food waste from incinerators and landfills through composting helps minimize the amount of carbon dioxide and methane released into the atmosphere by these traditional methods of waste management. Lower greenhouse gas emissions improve air quality, reduce impacts to human health, and increase resilience to the effects of climate change.

### **Soil health is key to the future of agriculture.**

Well-managed composting of waste adds biologically rich material to soils, feeding essential micro-organisms and fungi that improve soil health and enhance production of healthy, nutritious food. Healthier soils increase water holding capacity, facilitate nutrient cycling, and reduce soil loss, helping farmers maintain their land and minimizing risks to water quality and the Chesapeake Bay.

This legislation will improve soil health, help fight the effects of climate change, and transition Maryland to a more effective, equitable, and environmentally sound waste management system.

### **CBF urges the Committee's FAVORABLE report on HB 1318.**
