HB 964 – Landlords and Prospective Tenants – Residential Leases – Criminal History Review (Maryland Fair Chance in Housing Act)

**Hearing before the House Environment and Transportation Committee,
February 27th at 1:00 pm**

Position: SUPPORT (FAV WITH AMENDMENTS)

Disability Rights Maryland (DRM) is the federally-appointed Protection & Advocacy agency in Maryland mandated to advance the civil rights of people with disabilities. One of DRM's goals is to end the unnecessary segregation and institutionalization of Marylanders with disabilities. To achieve this goal, DRM's Housing Unit works to expand opportunities for Marylanders with disabilities to be part of their communities and to live in affordable and accessible housing. This includes representing persons with disabilities in eviction proceedings to prevent unnecessary homelessness and institutionalization.

DRM supports House Bill 964 because it would increase housing opportunities and decrease the potential for housing discrimination for all renters, but especially renters with disabilities with criminal histories who already face numerous barriers to accessing safe, affordable, accessible housing.¹ The treatment of people with behavioral health disabilities, especially by law enforcement, results in incongruent rates of criminal legal system involvement. People with disabilities are overrepresented at all stages of the criminal legal system— while only 15% of the general U.S. population is estimated to be disabled, people with disabilities make up 40% of all people currently experiencing incarceration in the United States, and 23% of people on probation or parole.² By limiting landlords' ability to require prospective renters to disclose past criminal legal system involvement, HB 964 would promote housing opportunity and housing security for renters with disabilities who have had previous interactions with law enforcement.

In addition to eviction prevention work, DRM attorneys and advocates assist clients with housing searches. The lack of housing options for low-income people is staggering; naturally, those with conviction histories are in no position to compete for such a limited resource. HB 964

would provide necessary protection to vulnerable renters, including tenants with disabilities, who are disproportionately forced into living in substandard conditions due to their lower-incomes and exclusion from the labor market.³ Increasing access to decent, safe and affordable housing for people with conviction histories will go a long way to ensuring that those with behavioral health or mental health disabilities have the opportunity to be fully integrated into all aspects of the community, and, thus, to enjoy a healthier and better quality of life.
