

HB0424 is a bad bill because PEOPLE, your constituents, do not want unelected commissions and boards running or steering from behind the scenes. This lacks transparency and adds another layer of additional bottomline expenses to our local / county governmental budgets which is always at the taxpayers expense. Wonder why our taxes keep going up and up and up and we get less back in services? This is exactly why. LESS government is more for our communities and personal bank accounts.

Please vote NO on this expense ridden bill.
