

To whom it may concern:

My name is Thomas J. Huber and I live at 1320 River Road, Pasadena, Maryland. I am for SB353 bill. I believe this bill is required to make sure decisions are being made by informed individuals. I recently moved to waterfront property on Rock Creek because I am an avid crabber, fisherman, and boater. I believe finesse and care are needed to make sure that the proposed dredging of the shipping channel in the Chesapeake Bay is carried out in a way to not negatively effect the bays health and or its tributaries. The bay is one of this country's biggest assets and a huge habitat for many fish, marine life, and animals including humans. We need to make decisions that tread lightly on the eco system and not choose the path that saves the most dollars. I appreciate your time in reading this letter.

Regards,

Tom Huber
