

OUR FAMILY IS AGAINST HB0910

Dear [aa\\_ent@mlis.state.md.us](mailto:aa_ent@mlis.state.md.us)

Our family is against holding the lake level back due to that it will decrease or eliminate late summer and fall releases on the river which are vital to the local and outdoor economy of not just Friednsville but all of the surrounding areas and businesses the depend of the releases and benefit from the river tourism.

This is another attempt of the local Deep Creek land owners to try in control the waters that are there not just for there personal usage, but for all. This is just another attempt to screw the rest of us for their personal pleasure.

We guarantee we spend as much if not more monies than the select few do.

Vote NO on HB0910!
