Re: SB0559- "Household Good Movers-Special Fund and Fees"
Date: February 22, 2024

In 2019, the Legislature passed SB712, which prohibits a person from providing household goods moving services with a commercial vehicle, as defined by current law, in the State unless the person is registered with the MD Department of Labor. The 2019 bill also established a registration cycle, requirements for original and renewal registration applicants, and grounds for registration application approval or denial and regulatory action against a registrant.

By directing that the fees generated by the Household Goods Movers Registration Unit be deposited in a special fund, the Unit will be able to cover the costs of administering the fund and thereby better serve the respective industry as well as the citizens of Maryland. Further, ensuring the operation of the Unit is cost efficient and that services provided to the industry and the public are competent, efficient, and productive is in the best interest of the citizens of Maryland.

To summarize, the proposed bill will create a Household Goods Movers Registration Unit Fund in the Division of Occupational and Professional Licensing at the Maryland Department of Labor. By directing that licensing fees be deposited in the Fund, as well as authorizing the Household Goods Movers Registration Unit by the Secretary of Labor, to set fees by regulation in amounts that will lower the Unit's costs, the bill will allow the Unit to continue to serve the respective industry, and the citizens of Maryland. Without this dedicated funding, the Unit would lack the financial resources to adequately carry out statutory responsibilities.

Thank you for your time, and we are asking for a favorable report.

Sincerely,

SB559 - Maryland Motor Truck Association - Support

BILL NO/TITLE: Senate Bill 559 – Business Regulation – Household Goods Movers – Special Fund and Fees

COMMITTEE: Senate Finance

POSITION: Support

Maryland Motor Truck Association is a not-for-profit trade association that has represented the trucking industry since 1935. Within our organization is a subgroup called the Maryland Movers Conference. This Conference is comprised of more than 60 companies engaged in household goods or office moving, and their suppliers.

In 2019 with the support of our organization and several of our members who testified in favor, the General Assembly passed Senate Bill 712 into law. That legislation required the Department of Labor to issue regulations establishing a licensing and registration program for household goods movers in the state.

Over 30 states require registration of their moving companies. Because Maryland has not been one of them, consumers have had no state agency to go to verify a moving company's status, which can make it difficult to identify if a company is reputable or is a scam artist. It also makes Maryland a state that rogue movers target when opening their businesses because there is no barrier to entry. This leads to scam artists taking advantage of unsuspecting customers with lowball estimates, false promises, and misleading advertising. They then illegally increase the cost of a move dramatically after a consumer's goods are loaded, leaving a consumer with little recourse but to pay the inflated charges or the mover will not give them their possessions.

Five years after its passage, there is still no registration program for movers in Maryland. During the pandemic, the Department had numerous staffing and unemployment insurance claim challenges, which delayed implementation of this program. While the agency is now planning to move forward with the regulations this year, concerns over funding the program so it can operate in perpetuity have been raised. Senate Bill 559 seeks to address this challenge by making a technical correction to the original legislation by specifying that the registration fees paid by moving companies will be deposited into a new Household Goods Movers Registration Fund to cover the costs of administering the program. The Department must set the fees annually to cover the program's approximate costs and may increase the fee each year by a maximum of 12.5% if needed.

Between October 1, 2019, when the program was to have been originally established, and February 1, 2024, the Attorney General's Office received 317 complaints against moving companies in Maryland. It is time to get this program running for the protection of moving consumers and legitimate moving companies. We believe the passage of this legislation will spur that action and urge a favorable report.

About Maryland Motor Truck Association: Maryland Motor Truck Association is a non-profit trade association that has represented the trucking industry since 1935. In service to its 1,000 members, MMTA is committed to support, advocate and educate for a safe, efficient and profitable trucking industry in Maryland.

SB559
Business Regulation – Household Goods Movers
Special Fund and Fees

Good afternoon, Vice Chair Klasmeier and Members of the Finance Committee;

Thank you for the opportunity to present SB 559, Business Regulation – Household Goods Movers – Special Fund and Fees. SB 559 provides the Department of Labor the necessary structural support to operationalize the Household Goods Movers Registry and finally provide Marylanders with the level of consumer protection the program was intended to provide.

As background, the General Assembly in 2019, passed SB 712 which established the Household Good Movers Registry under the Maryland Department of Labor (MDL). The original law prohibited a person from providing household goods moving services with a commercial vehicle in the State unless the person is registered with the Department of Labor. It also required they provide proof of insurance, pay a registration fee, provide relevant information to MDL, and display their registration in all commercial vehicles.

Fast forward five years later, SB712 still has not been implemented, consumers still have no state agency to go to verify a moving company's status, which can make it difficult to identify if a company is reputable. The Attorney General's Office has received 317 complaints against moving companies in Maryland between October 1, 2019, when the program was to have been established, and February 1, 2024.

Senate Bill 559 seeks to address this challenge by making a technical correction specifying that the fees paid into the program by moving companies would be deposited into a new Household Goods Movers Registration Fund to cover the costs of administering the program by MDL. This will bring this program in line with the other Occupational and Professional programs - it will be a self-sustaining specially funded program not reliant on General Funds for its operation.

With adequate funding, MDL will be able to establish the necessary infrastructure to administer the program, ensure compliance, and coordinate with the Office of the Attorney General as necessary to enforce the law.

I respectfully request a "Favorable Report" on SB 559.
