

## Health Occupations - Pharmacists - Administration of Vaccines HB0076

Tuesday January 30, 2024

Good afternoon,

My name is Ayo H. Kimathi. In 2022 and 2023, I testified against many bills proposed in Maryland seeking to seductively force unwanted and undesired bioweapon technologies on the public. These bills are all genocidal in nature. One of the letters I sent to the legislature to oppose these genocidal bills is included at the bottom of this document for reference. I've also included other attachments as well.

Since this time, we have discovered more concrete evidence that these injections are genocidal. More importantly, we are in possession of a peer-reviewed medical paper that indicates who is behind this organized genocide of the American Republic. A Maryland resident, J. Bart Classen, MD is the author of this study entitled, *COVID-19 and Illegal US Bioweapons Activity, an Insider's Revelations*. The study is included as a separate attachment to this testimony. The direct hot link to this paper is listed below:

<https://www.scivisionpub.com/pdfs/covid19-and-illegal-us-bioweapons-activity-an-insiders-revelations-2432.pdf>

From his time working in Maryland alongside Dr. Anthony Fauci, Dr. Classen has observed and concluded that Jews, many being Israeli members of the Mossad, infiltrated the US Government bioweapon infrastructure and used US assets to produce bioweapons designed to commit genocide against the gentiles (non-Jews) of the planet. His observations were mostly made from the state of Maryland where he worked and witnessed much of this first hand.

Based on my research and Dr. Classen's peer-reviewed research paper, I am convinced that International Jews have collaborated in an effort to commit a slavery-to-genocide war against the American people and the

gentiles (non-Jews) of the planet. My research, in addition to research compiled by others, clearly indicates that the entire COVID-19 fiasco was orchestrated by Jews, with the assistance of their proxies, to commit a mass slavery-to-genocide technology (mRNA) injection war against the people of the Earth. The Jews orchestrated the shutdown of the entire planet to implement these efforts. Episode 7 of *In Black and White* details more about the subject of these new bioweapon injections being falsely classified as “vaccines” and being agents for global genocide.

I strongly oppose HB0076 and all other bills that attempt to provide government the authority to inject American citizens with dangerous bioweapon technology against their knowledge, understanding and/or will. These are criminal acts of genocide. And whether or not the sponsors of this bill and others of similar ilk are aware of the danger they present is immaterial. This is active genocide and must be resisted at all costs for the sake of preserving the human genome as we know and understand it. mRNA technology is being incorporated into the production of all “vaccine” injections. As a result, all of these efforts to inject people threaten the health of the US population. It is specifically disturbing that Dr. Classen who authored the study mentioned above lives and works in Maryland. This means that on some level this genocide was orchestrated in our beautiful state. This is an abomination.

HB0076 is an act of genocide. More specifically it is part of an ongoing act of global Jewish genocide against the gentile population of planet Earth. All responsible American citizens must resist this and all other similar efforts.

# Technology Injection & Emergency Health Agenda Bills

March 15, 2023

Good evening,

My name is Ayo H. Kimathi. I am a Prince Georges County, MD resident.

This email is to contextualize a couple of bills that are collectively designed as part of a larger effort to force dangerous technology and accompanying agendas, under the guise of helpful “vaccinations” and emergency health procedures, on the residents of Maryland.

By now, most American citizens are aware of the fact that the injections provided to the public called COVID-19 “vaccinations” do not prevent people from getting sick nor spreading the sickness. They are not vaccinations. They are an emerging form of gene-altering technology called mRNA. Below is a link to a short TEDx Talks video uploaded to YouTube in Dec 2017, featuring the Chief Medical Officer of Moderna at the time Tal Zaks explaining mRNA technology:

<https://www.youtube.com/watch?v=AHB2bLILAvM>

At least since 2022, we witnessed bills coming out of Maryland trying to force mRNA injections and accompanying emergency health agenda bills on residents. Here is a short list:

## 2022:

### **SB839 - Maryland Voluntary COVID–19 Vaccine Passport**

This would allow a moderate system of slavery to be instituted where people with “passes” or passports are treated preferable to those without passports.

### **SB840 - COVID–19 Response Act of 2022**

This bill would have allowed the state of Maryland to legally require the state to murder Maryland citizens who tested “positive” for COVID-19 by mandating the Remdesivir protocol. Remdesivir is a poisonous medication that has proven to destroy the kidneys, liver, and other organs. It’s a lethal concoction used in America when people test “positive” for COVID-19. Thousands of Americans were murdered under the guise of COVID-19 when they were and are actually being killed with the Remdesivir protocol.

This 2-minute video by Dr. Peterson Pierre exposes some of the financial incentive for why this is happening:

<https://www.bitchute.com/video/6ArIJ8qhEc6F/>

### **2023:**

#### **SB378 - Vaccinations: Minor Consent**

This bill was pulled by the sponsor. However, it will likely return next year. It is a basic carbon copy of the Washington, DC [Minor Consent for Vaccination Act of 2020 we fought and achieved an injunction on in March 2022](#). DC pushed to make 11 year olds into adults and authorize them to get the mRNA injections without parental consent and Maryland was seeking to do it for 14 year olds and above. Both bills are designed to rob parents of their right to protect our children. Also, both laws are aimed at forcing this mRNA DNA-altering technology into the bodies of our children. *(PS: We are uncomfortable with the language “Minor Consent” as it has obvious pedophilic undertones.)*

#### **HB 1232 (SB372) - Pharmacists: Administration of Vaccines**

This bill is the same as bill SB378, except it extends the capacity for children as young as (3) years old to be injected with this mRNA technology by pharmacists – **who are not doctors**. This can be done w/o their parents’ knowledge or consent.

Beyond the obvious attempts to inject people’s children without the parents giving permission or having informed consent, the danger of these injections presents a worse threat.

The Vaccine Adverse Events Reporting System (VAERS) is the most popular system used by the US Federal government to track death and injuries from vaccinations and the new mRNA technology injections. It was started in 1990. More deaths have been reported in the 1<sup>st</sup> (2) years from the mRNA injections than the combined total of all vaccines given over the past (32) years. This makes these injections the most dangerous injections passing as medicine in the history of America.

Additionally, I have included the Pfizer document published in April 2021 where they listed over 1,200 known adverse side effects of their mRNA COVID-19 injection. Nevertheless, they pushed to get the CDC to approve it for giving to the American public.

In short, not only should we not have bills allowing pharmacists and/or doctors to give these dangerous injections to children w/o their parents' permission, but we shouldn't be allowing any American citizen to receive known dangerous gene-altering technology into their bodies.

All of these bills are designed to force us to accept these gene-altering technology injections into our bodies and the bodies of our children. And after they do it, they want to be able to track us and control those who don't comply.

For these reasons, we request that you vote against HB1232 and all bills that push these agendas in the future.

Thank you,

Ayo H. Kimathi
