

I'm Bill Love of 490 Fairoak Dr, Severna Park MD

Concerning HB0686: Youth Sports Programs - Venue-Specific Emergency Action Plans - Requirements

I am in favor of this bill reluctantly. It's a shame this bill even has to exist. COVID injections (it's not a vaccine) is still "EXPERIMENTAL". COVID injections are the cause of most of these young athletes having cardiac issues.

For the love of God, please put in place legislation that will end this health emergency madness.

Thank you
