

**Committee:** House Health and Government Operations Committee

**Bill:** House Bill 34 - Interstate Social Work Licensure Compact

**Hearing Date:** February 1, 2024

**Position:** Support

---

The Licensed Clinical Professional Counselors of Maryland (LCPCM) supports *House Bill 34 - Interstate Social Work Licensure Compact*. The bill establishes a licensure compact for social workers. Similar to other licensure compacts, social workers would be authorized to practice in all Compact member states under a multistate licensure.

We are facing a crisis with the shortage of behavioral health professions in Maryland, as 21 of 24 jurisdictions have a mental health professional shortage area.<sup>1</sup> Licensure compacts and other reciprocity arrangements will increase access for Marylanders by allowing health professionals, including social workers, from other states to provide in-person or telehealth services.

We ask for a favorable report on the legislation. If we can provide any further information, please contact Robyn Elliott at [relliott@policypartners.net](mailto:relliott@policypartners.net) or (443) 926-3443.
