

2/14/2024

I am 78 years old and look forward to a natural death after having lived my life to the fullest extent that I have been given. I do not want anyone to euthanize or terminate my life any sooner than it was supposed to end. No one has the right to usurp God's authority and do this to anyone. People need kindness and loving care rather than cold hearted disposal which is what will happen when there is financial gain to be had by killing people.
