

HB1206 – UNFAVORABLE Senseless!

Nelda Fink

MD District 32

We don't need a commission especially for a population of on 9%. And we don't need to establish "promotions of trade practices". Free market is free market. Business today CAN NOW establish business relations with Ireland and any country for that matter. News Flash!!! They already do this!!

So this commission would investigate things like tax cuts and state favoritism to business who follow the commissions recommended legislation. This is a waste of my taxpayer money.

100% OPPOSE this bill. I expect an unfavorable report.

Thank you.

Nelda Fink
