

## **UNFavorable on HB0691**

vince mcavoy po box 41075 baltimore md 21203

House Judiciary Delegates,

This bill tries to graft into law butchery which no civilization has ever condoned --- the mutilation, brainwashing and medical malpractice of Maryland children.

Butchering fellow human beings is evil. The people who do it are evil

The question is...when the rest of the country and countries across the globe are backing away from allowing (much less promoting) this mutilation of Maryland's children and the mentally ill claiming to be "transgender"-ed, the question is, "What is your price to be complicit with overt, IN-YOUR-FACE evil?"

### **Last Year's Absurdity from Kris Fair**

I invite you to read an article by journalist Brian Griffin entitled "*Democrats: Five Year Olds Can Determine Their Gender*". Griffin discusses Fair's absurd takes on the House Floor regarding five-year-old's being sexual beings, stating: "Fair tries to sidestep that and then makes the bogus claim that a five-year-old 'knows' that they are transgendered AND that the information can be kept from parents."

### **Democrats: Five Year Olds Can Determine Their Gender**

Brian Griffiths

Absolutely bonkers comments from  
Democratic Delegate Kris Fair

This law is far too broad and unbalanced as any reasonable person who calculate the endless number of operations, dental work and medical care that Maryland residents do not receive, do not have a mandate or a cheerleader for the evil HB0691 has. If this bill hits the proverbial road, people will claim a "right" to cut off sexual organs in the name of perversion and LGBTQ++++ People will claim a "right" to cut off the mammary of girls who should be future mothers, in the name of perversion and LGBTQ++++.

People will claim a "right" to have hair implants, Adams apples removed, eyebrows thinned or thickened in the name of sexual perversion and LGBTQ++++/

I am hopeful that – given Delegate Arian's diametrically-opposed bill favoring life in children and not their eventual destruction at the hands of Planned Parenthood – you delegates have enough commonsense and disdain of evil to vote this bill down – immediately and decisively.

**Children are not okay. The media, LGBTQ teachers in schools and pro-LGBT lobbies/afterschool clubs have allowed this to go on for far, far too long.**

**The House and Senate should stop the indoctrination of Maryland's children and throttle the supply for these perverse measures.**

I urge the Committee not to let the bar drop lower, to not spur mental illness, perversion, bribes by Planned Parenthood, death and infection in Maryland.

humbly offered  
~vince
