

March 11, 2024

We have evidence that the Talbot County Child Advocacy Center violated a 5-year old's civil rights in 2018. The Talbot County Child Advocacy Center did not have any qualified or credentialed personnel to perform a child sex abuse investigation on a disabled child and never offered her trauma services. Instead the multi-disciplinary team, including the detective and State's Attorney's Office, said the child was lying. They didn't perform a proper investigation on a disabled child and her mother has been so persistent that her case has made it to the Office of State Prosecutor's office. We anticipate hearing from them by April 1, 2024.

We complained to the National Children's Alliance in two ZOOM meetings and asked them to investigate the Talbot County Child Advocacy Center which they did and said they would maintain their NATIONAL ACCREDITATION. This is a crooked organization from the top to the bottom. We have the evidence that proves it.

I vote in favor of HB1100 & SB1110
