To whom it may concern,

I am writing to express the strongest possible support for HB 380. Maryland is in need of more emergency medical technicians. Allowing hard working, caring immigrants who may lack certain documentation to fulfill this need is a moral imperative. We can save lives and welcome immigrants who want to contribute at the same time. I personally know of one such young woman who is fully trained and certified nationally but is being prevented from contributing in this manner due to no fault of her own. She, like many others, was brought to this country as a young person. This is her home, and she is an asset to any community where she can contribute.

Once again I am strongly in support of this bill. Thank You for your consideration of this bill.

Thank you for supporting this bill,

Rabbi Aviva Rain Zohav
