

I am writing to strongly express my unwavering support for House Resolution 0002, which advocates for the establishment of a long-term ceasefire in Israel and occupied Palestine, alongside the return of all hostages and the provision of sufficient humanitarian aid to the Palestinian people. As a deeply concerned constituent of Maryland, I firmly believe that endorsing this resolution is not only crucial but also morally imperative. It signifies a resolute commitment to promoting a diplomatic resolution to the conflict, while also serving as a vital safeguard for the millions of innocent civilians, particularly the Palestinian population in Gaza, who are currently being ethnically cleansed.

Sincerely,

Cesar Garzon
