

It is imperative that the General Assembly passes a Ceasefire Resolution. We have watched over 30,000 Palestinians in Gaza be brutally murdered over the last several months. By supporting Israel in funding (and in silence), Maryland is complicit in a genocide. You are communicating to Palestinians, Arabs, Muslims, and all people of marginalized identities in Maryland that you do not care about us. Please be on the right side of history and support an immediate and permanent ceasefire now. Thank you.
