County Executive

RE: Senate Bill 1075, *Criminal Law – Distribution of Heroin or Fentanyl Causing Serious Bodily Injury or Death (Victoria and Scottie’s Law)*  
Support

---

I am writing to express my support for Senate Bill 1075, *Criminal Law – Distribution of Heroin or Fentanyl Causing Serious Bodily Injury or Death (Victoria and Scottie’s Law)*. The bill would prohibit an individual from distributing heroin or fentanyl that results in the death or serious bodily injury to another. The penalty upon conviction would increase from 10 years in jail to up to 20 years in jail- in alignment with federal law. The bill would further allow for the prosecution of a person to be brought in either the County where the drug violation occurred or in the County where the death or serious injury from the drug occurred.

Like the rest of the United States, Montgomery County has seen an increase in fentanyl overdose deaths that have had a heartbreaking impact on many families in our communities. According to the Centers for Disease Control and Prevention, more than 112,000 people died in the United States in 2023 of drug overdoses and poisonings, with almost 70% of those deaths attributed to synthetic opioids like fentanyl. It is no wonder. The Drug Enforcement Administration reports that fentanyl is approximately 50 times more potent than heroin and 100 times stronger than morphine.

This is a serious issue, and individuals trafficking in deadly synthetic opioids must understand there will be criminal penalties for being involved in the distribution of what can lead to a fentanyl-induced death or serious bodily injury. To be clear, however, the overdose crisis is complicated and will require more than enhanced penalties to deal with it. I would urge that in addition to this penalties legislation, that the State continue to focus on substance abuse disorder efforts including expanding medication-assisted treatment, enhanced linkages to care, and increased funding for counseling and behavioral therapy. Maryland families deserve that.

To that end, I urge that the Committee adopt a favorable report on Senate Bill 1075.
