

HB1181 – UNFAVORABLE

Nelda Fink

MD District 32

Dr Carey Wright of the states new interim superintendent stated in her testimony against SB1058 that the state should not be mandating the curriculums. Even Gov Moore is on record for stating the same. Let the state Board of Ed with Dr Wright implement her new working group so that we can continue to allow autonomy at the local level schools rather than infringing on the local authority with mandates.

Thank you.

100% OPPOSE this bill and expect an unfavorable report. (Yes, I was in favor of SB1058 until I heard Dr Wright's testimony.)

Thank you.
