

To Whom may concern,

My name is Daryl Conary Withers Jr and I'm here stating my hardships of not having my driver's license. It's been very hard for me not being able to drive my own car to work. I'm not able to drive to my children's schools, doctor appointments, grocery stores, church etc. I have been dependent on my family and friends to drive me or help provide transportation, all while they have jobs and families they have to tend to. So it is very inconvenient not having my driver's license. Sometimes I take the risk of driving myself if I have no other choice. Knowing that it is a great chance of me being pulled over. If I can't drive I risk the possibility of losing my job, to not provide for my family or myself, pay our bills, and most importantly pay my child support.

Thank you
