OPPOSITION to HB 1515

I respectfully submit my extreme opposition to this bill that will further tax the residents of Maryland. I am very disappointed and perplexed to see that you look to increase the burden on so many.

During this election year the state of our economy is at the top of everyone's concern list – the growing prices of grocery, gas, general services, etc. It seems to me that you would be looking at finding ways to relieve us of financial burdens rather than adding to them.

Please, I implore of you, DO NOT give this bill a favorable report that will add more financial burden to so many who may already be struggling with their everyday financial lives.

Sincerely,

Jacquie Wood Cowan
