HB 0671 FAVOR

Criminal Law – Display of Obscene Material to Minors – Prohibition

House of Delegates on Committee on Ways and Means

Tuesday, February 14, 2024 at 1:00pm

Dear Delegate Grammer and members of Ways and Means Committee:

My name is Victoria Harvey & I favor HB 0671. Parents should not have to worry about what our children are exposed to in school.

Unfortunately, we have some teachers and/or librarians that prioritize social justice & LGBTQ+ agendas over the building blocks of education. These sensitive issues should not be introduced to children by anyone other than a parent, children mature at vastly different rates.

HB 0671 would start to lessen the weight of worry on the shoulders of many parents & help lessen the contention that is found at many board of education meetings. Testing has shown that our schools need to focus on the building blocks of education, not attempting to indoctrinate children with obscene material.
