I am writing to express my wholehearted support for the Fairness In Girls' Sports Act, which I believe is a crucial piece of legislation that addresses concerns related to fairness and equality in girls' sports. My name is Chris David, and I reside in Stevensville, MD.

I would like to commend your commitment to addressing important issues within our community, and I am grateful for the opportunity to voice my support for this legislation.

Fairness and equality in girls' sports is extremely important. The importance of creating a level playing field for all participants, ensuring that every girl has the opportunity to compete fairly is paramount to a healthy society and to continue to uplift the self confidence of girls.

There are biological differences between girls and boys. Those biological differences give significant advantages to boys over girls in most sports. Boys develop muscles and strength at higher levels and earlier than girls. Those muscles and strength are an unfair competitive advantage in most sports. The fairness in girls' sports act seeks to keep the playing field even and fair in sports competition.

This act safeguards opportunities for girls to excel in sports by maintaining fair competition. As of now, we have not had much of an issue with this in Maryland, as far as I know. But as society continues to progress, there will be more and more biological males who want to compete with biological females in sports.

This is not a bill about gender inequality and to mistreat the LGBTQ community. This bill is intended to protect our young girls from being taken advantage of and mistreated and unfair competition.

The fairness in girls sports act is a necessary bill to support the girls of Maryland. To ensure fair and equal competition in sports at such a critical age and time for our young girls.

Thank you for your time and dedication to serving our community. I believe that the Fairness In Girls' Sports Act will contribute significantly to promoting equality and fairness in sports, ensuring that every girl can participate with confidence.

Sincerely,

Chris David
