

Bill:	House Bill 416	Date:	February 7, 2024
Title:	Public Schools - Active Shooter Safety Drills or Trainings - Requirements	Committee:	Ways & Means
Position:	Favorable	Contact:	Kim Buckheit kim.buckheit1@maryland.gov 443-902-0622

On behalf of the Maryland Center for School Safety (MCSS), thank you for the opportunity to submit this letter of support for House Bill 416.

MCSS agrees that, *except* for active shooter drills and training happening outside of regular school hours with voluntary participants, active shooter drills and training should be conducted in a trauma sensitive manner without loud sounds that simulate gun fire, or actors role-playing as shooters or victims. Recently published research demonstrated that following training schools increased effective implementation of lockdown procedures with the use of drills that announced to participants “this is a drill”, and concluded the drill with a debrief¹.

MCSS agrees with the National Association of School Psychologists and National Association of School Resource Officers recommendation to “avoid[] highly sensorial drills that involve simulation activities to mimic a real experience as they can be traumatizing.”² MCSS is prepared to engage with partners to identify best practices for active shooter drills and trainings and share information with the Department to inform the annual schedule of drills.

MCSS welcomes the opportunity to consult with the Department of State Police in developing model content that informs parents of firearm storage laws and collaborating with Local Education Agencies to ensure distribution of the model content to parents.

Thank you again for taking the time to consider the information shared above, and MCSS respectfully requests the committee give House Bill 416 a favorable report.
