**Testimony on HB 80 –  
*Land Use – Transit-Oriented Development – Alterations*  
Budget & Taxation Committee**

**Position: Favorable**

The Central Maryland Transportation Alliance supports HB 80, which will reduce barriers to building transit-oriented development (TOD) at certain rail stations across the state.

Maryland has been a leader in transit-oriented development and smart growth policy for decades. However, aside from investment and development around WMATA stations in the DC area and a few strategic developments in the Baltimore area, implementing TOD across the state's transit assets has been slow and inconsistent.

Lagging economic growth has contributed to Maryland's current budget crisis, steadily increasing housing costs burden families, and transit ridership needs to rebuild in the wake of the pandemic. TOD can help address all of these challenges by creating thousands of new housing units, generating new state and local tax revenues, and giving people easy access to transit stations.

HB 80 will make it easier to build sustainable, transit-oriented communities that support state goals of investing in our existing infrastructure and driving long-term economic value. The bill addresses TOD implementation through necessary zoning and land use reforms.

We encourage a FAVORABLE report for House Bill 80.
