Bill: Senate Bill 506 – Maryland Medical Assistance Program - Use of Reimbursement Funds by Schools

Hearing Date: March 5, 2025

Position: Support with Amendment

The Maryland Occupational Therapy Association (MOTA) supports *Senate Bill 506 – Maryland Medical Assistance Program - Use of Reimbursement Funds by Schools*. The bill would direct funding from new Medicaid reimbursement opportunities to strengthen school health programs.

MOTA has been working to address the long-standing shortages of occupational therapy practitioners and other health care providers in schools. We participated in the work of the Commission to Study the Health Care Workforce Crisis in Maryland. The Commission concluded that Maryland is far behind other states in addressing health professional shortages.¹

We have a path forward to address the shortage of school health providers. In March 2023, the Centers for Medicare and Medicaid Services released new federal guidance on reimbursement for school health services.² This guidance removes regulatory barriers and offers the opportunity for additional federal resources for school health through Medicaid reimbursement.

We would request two amendments which we believe align with the intent of the bill:

Amendment 1: Clarifying which practitioners may be reimbursed. Federal law and regulations already delineate who may bill for school health services. The practitioner must be authorized to practice either by a health occupation board or education agency. We recommend aligning the bill's language to reflect federal guidance:

On page 1 in lines 21-23:

(2) “PROVIDER” MEANS A ~~SCHOOL AUDIOLOGIST, SCHOOL~~

PRACTITIONER WHO IS AUTHORIZED TO PRACTICE IN A SCHOOL SETTING UNDER THE HEALTH
OCCUPATIONS ARTICLE OR EDUCATION ARTICLE INCLUDING

(v) occupational therapists and occupational therapy assistants;

(viii) school counselors; and
(ix) school psychologists.

Amendment 2: Clarifying how funding may be spent. As we understand the bill’s intention, new resources from Medicaid billing for school health must be directed towards the school health workforce. We would recommend a change in language to recognize that school health professionals are paid through salaries rather than stipend arrangements as well as that educational opportunities are not typically labeled as internships:

On page 2 in lines 8-15:

(1) ADDITIONAL POSITIONS FOR PROVIDERS;
(2) ~~PAID INTERNSHIPS FOR STUDENTS SEEKING TO BECOME~~
