Re: HB 338 State Buildings & State Highways – Collection and Disposal of Yard Waste Support**

Maryland Recycling Network members are public and private sectors recyclers and recycling advocates. Our members are county and municipal government recycling managers, private sector recyclers, non-profit recyclers and citizens who support recycling. We have direct experience operating recycling and composting programs at the county and municipal government level. We know the ins and outs of recycling in Maryland. Our experience informs our comments.

We promote sustainable reduction, reuse and recycling (the 3 "R's") of materials otherwise destined for disposal and the purchase of products made with recycled material content. We achieve these goals through educational programs, advocacy, technical assistance, and the development of markets to purchase recycled materials and manufacture products with recycled content.

We support HB 338

Yard "waste" such as leaves, grass and branches, is commonly collected for composting by local governments throughout Maryland. In fact, MDE's most recent waste and recycling report showed 353,044 tons were collected and managed at 21 permitted composting facilities operating in 11 Maryland counties. This is a tremendous success story. Adding yard waste collected from state-owned properties, including highways, will only add to our success. Throughout our state we are creating a usable lawn product and avoiding disposal of methane producing organic material. This is a win for Maryland's environment!

We thank Delegate Lehman for introducing this bill and urge its speedy passage.

The Maryland Recycling Network is a sounding board and resource for legislators and others interested in recycling and waste reduction.
