Re: *House Bill 338: State Buildings and State Highways - Collection and Disposal of Yard Waste - SUPPORT*

February 3, 2025

Dear Chairman Korman and House E&T Committee Members:

On behalf of the Maryland Turfgrass Council (MTC), we write this letter in support of House Bill 338: *State Buildings and State Highways - Collection and Disposal of Yard Waste*.

The Maryland Turfgrass Council (MTC) is a non-profit organization that represents all areas of the turf industry including golf, sports turf, sod producers, landscape, lawncare and commercial vendors and suppliers.

As written, HB338, would prohibit State employees or contractors from disposing of yard waste collected on the grounds of a State building or a State highway in a single-use plastic container. In addition, the bill requires that such yard waste be collected in a container that will not be discarded with the yard waste or that is a compostable paper bag.

This legislation was introduced last year and successfully passed the House chamber. According to the Department of Legislative Services' (DLS) fiscal (from 2024), it states that fiscal impacts to state, local and business effects would be "minimal". Moreover, the fiscal note also state that "most State agencies responsible for the removal of large quantities of yard waste from State buildings or highways indicate that the bill has no fiscal effect on their operations."

Given the minimal impacts, but the environmental importance this legislation would have to the State, MTC firmly supports the passage of HB338 and humbly seeks this committee for a FAVORABLE report.

Sincerely,

A handwritten signature in blue ink that reads "Brandon Sands".

Brandon Sands, *President*
Maryland Turfgrass Council (MTC)
