Chair Korman, Vice Chair Boyce, and Committee Members:

Senate Bill 7 is a straight-forward piece of legislation designed to combat child exploitation and human trafficking in our communities and to equip employees working with the Maryland Department of Transportation with the information necessary to recognize the signs of these crimes.

This bill would require the Maryland Department of Transportation to put in place both a human trafficking recognition education training program curriculum (offering guidance to employees and contractors of Maryland transit agencies, taxicab drivers, and transportation network operators on ways to recognize and respond to the signs associated with human trafficking) and a reporting procedure to when such crimes are recognized. Additionally, the bill would require (when practicable) audible public service announcements throughout Maryland transit stations, airports, port facilities, and highway rest stops.

As someone who spent the majority of his professional career in law enforcement, and as someone who personally worked to stop these types of crimes as Prince George's County Sheriff, I am confident that this legislation will provide a means to protect some of those victimized by this hidden and heinous crime in our State.

**For the reasons listed above, I ask for a favorable report of Senate Bill 7.**
