**RE: Senate Bill 776 – Workgroup to Study the Rise in Adverse
Decisions in the State Health Care System – Establishment – Letter
of Support as Amended**

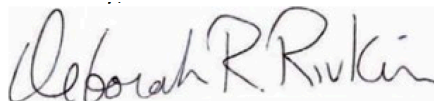

Dear Chair Peña-Melnyk and Committee Members:

The Health Services Cost Review Commission (HSCRC) respectfully submits this Letter of Support for Senate Bill 776, “Workgroup to Study the Rise in Adverse Decisions in the State Health Care System - Establishment” as amended, and requests that the Committee submit a favorable report.

SB 776 will establish a workgroup consisting of legislators, key government agencies and stakeholders to study adverse decision reporting requirements for all health payers in Maryland, and to make recommendations to improve State reporting on adverse decisions. The workgroup analysis will provide needed transparency into adverse decision making data, allowing a better understanding of recent patterns and trends including the frequency of claim denials, and populations or conditions that may be more vulnerable to adverse decisions. This information will in turn empower policymakers with critical information to develop data-driven policy improvements focused on reducing unnecessary denials and appeals, lowering administrative burdens for both insurers and healthcare providers, and strengthening Maryland’s health care system. HSCRC supports SB 776 as a valuable step toward improving healthcare access, fairness, and efficiency in Maryland.
