ANNAPOLIS, MARYLAND 21401

**Bill: HB 977 - Criminal Law - Manslaughter by Vehicle or Vessel - Increased Penalties  
(Jamari's Law)**

**Position: Favorable**

Good afternoon, Chair Clippinger, Vice Chair Bartlett, and members of the Judiciary Committee. My name is Delegate Brian Crosby, and I am here today to present HB 977, Jamari's Law.

This legislation is named for Jamari Duckett, who was a resident of St. Mary's County. In 2022, Jamari was killed in a car accident caused by a drunk driver, who was found to be driving at speeds between 76 and 91 miles per hour in a 40-mile-per-hour speed limit zone. Jamari was only eighteen years old. You will hear from the Duckett family today, as well as many other families whose loved ones were taken from them far too soon, in such a brutal and violent way.

Under current law, a first offense for manslaughter by vehicle or vessel (gross negligence) carries a maximum of 10 years in prison, while subsequent offenses carry a maximum of 15 years. Since such a crime is considered a "non-violent" offense, those convicted could be eligible for parole after serving as little as one-quarter of their sentence. That means that even when a person is sentenced to the maximum sentence, they can still be released from prison after serving as little as 2.5 years. Although the driver who killed Jamari Duckett was sentenced to the maximum possible sentence of 10 years in prison, he could still be released in as little as 2.5 years. This bill will increase the maximum penalties to 20 and 30 years, respectively.

It is important to note that this bill will not create a mandatory minimum. It will only give judges greater flexibility when sentencing people found guilty of this crime.

I respectfully request a favorable report on HB 977. Thank you for your consideration.

**My life change that night when a drunk driver recklessly took my son Jamari away from/us. Jamari was a bright and ambitious young black man, who laid out his path to success with college as his next step only to have a careless drunk driver block his path with a fatal blow from a truck plowing down on him like a tank to a bicycle; he had no chance. This is reckless and a disregard for life when you get behind the wheel drunk and driving over the speed limit. That could have been you, me, your kid(s), parents, or grandparents in that car, and to only get 10years and out a few years later on probation is a slap to all the families that have lost someone to drunk driving. Send a message and increase the penalty for murder because that is what it is with a vehicle is no different than a gun, just a bigger bullet. I know Jamari was going contribute to make the world a better place to live, so let's help him still accomplish that goal and pass Jamari's law.**

**BILL NUMBER: House Bill 977 - First Reader**

**SHORT TITLE: Criminal Law - Manslaughter by Vehicle or Vessel - Increased Penalties (Jamari's Law)**

**DEPARTMENT'S POSITION: SUPPORT**

### **EXPLANATION OF DEPARTMENT'S POSITION**

---

HB 977 enhances public safety by increasing the maximum periods of incarceration for those convicted of manslaughter by motor vehicle and/or vessel. By doubling the maximum period of incarceration, the bill promotes the threat of harsher penalties that can discourage individuals from engaging in reckless or negligent behavior that could lead to manslaughter. It serves as a reminder that there are serious consequences for actions that result in harm to others, especially when those actions are avoidable, like reckless driving or boating. Increasing penalties may help ensure that those who cause fatalities due to reckless behavior face consequences that reflect the severity of their actions. This can be seen as a way to hold individuals more accountable for the lives lost due to their negligence or disregard for safety.

Stronger penalties can encourage behavior change and repentance in offenders while also providing a sense of justice for the families of victims, especially if they feel that the existing penalties are too lenient for the loss of life caused by someone else's careless actions.

The notion is that harsher sentences might bring a sense of closure to those affected. Longer sentences might also provide an additional layer of protection for society by keeping individuals who have demonstrated reckless behavior off the roads or waterways for longer periods. This can reduce the likelihood of repeat offenses.

The introduction of stricter penalties acts as a deterrent to reckless actions, promoting safer driving / boating practices and reducing the likelihood of accidents.

### **BACKGROUND INFORMATION**

---

The maximum incarceration penalties established in the bill are doubled than what is currently established. Currently, the maximum penalty for Manslaughter by vehicle or vessel (Gross negligence) is imprisonment not exceeding 10 years or a fine not exceeding \$5,000 or both (the bill proposes 20-year incarceration). For those that violate this section, having previously been convicted under this section, § 2-210, § 2-503, § 2-504, § 2-505, § 2-506, or § 3-211 of this article, or § 21-902 of the Transportation Article, current law has a maximum penalty of imprisonment not exceeding 15 years or a fine not exceeding \$10,000 or both (bill proposes 30 year incarceration).

[emily.wilson@maryland.gov](mailto:emily.wilson@maryland.gov) ♦ 410-260-8426 (office) ♦ 443-223-1176 (cell)

**BILL EXPLANATION**

---

The bill increases the maximum periods of imprisonment for an individual convicted of manslaughter by vehicle or vessel. It also increases the maximum period of imprisonment penalties for those charged and having been previously convicted of homicide by vehicle/vessel while impaired by alcohol and/or drugs.

July 9,2022 is a day my entire family will never forget. My mom, who is Jamari's great aunt had spent the night at my apartment in Abberly Crest. She woke me up in the wee hours that morning saying there was a bad accident in front of the neighborhood. My friend had told me earlier he was on the way to my house but never arrived. I panicked and got up and got dressed just to make sure he wasn't involved. I drove up the street but didn't see his car. What a relief I was thinking to myself. Still sending a prayer up to whomever was involved because the scene looked pretty bad. I got back home and told my mother what I saw. We talked and dozed off just to be awakened by a phone call that Jamari was involved in that terrible accident. I just hugged this young man a few nights before at his job. He always showed any of his family the utmost respect and genuine love whenever we encountered each other. We gathered at the hospital with some kind of glimpse of hope. Praying our hearts out that Jamari would pull through. He didn't. Our family is still devastated by the loss. And to know that the person who took this precious soul away from us will be able to walk freely in such a short amount of time is unbelievable. How is it that a young man that just graduated with his entire life ahead of him be taking away from us so soon? But the person who took Jamari from his family will be allowed to be free. He can see his children. He will be able to breathe this fresh air that law abiding citizens breathe. A life time of prison is not enough yet alone 10 years. So I am asking on behalf of my family to please increase the maximum penalty to 20 years. Jamari was a son, brother, grandson, nephew, cousin and friend to so many. This law needs to be passed to hold drunk drivers responsible for taking someone's life.

Respectfully,  
Michelle Bennett

- Dear Maryland Judicial Proceedings Committee,

I hope this letter finds you well. I want to thank you for taking the time to read my letter. Prayerfully, my family and I can get a positive outcome.

July 9, 2022, Jamari Duckett became a victim from the hands of a drunk driver. Jamari, unfortunately passed away. Jamari is the 9th family member who has lost their life due to a drunk driver, with Jamari being the youngest. Seeing Jamari lay in that hospital bed, face disfigured, head swollen, laying there lifeless, will be a image I will live with for life. How can someone be that irresponsible? Jamari was young, vibrant, a law abiding citizen. To die in such manor as he did, leaving a tremendous impact leads me to asking you to consider increasing the maximum penalty for manslaughter by vehicle or vessel

Increasing manslaughter by vehicle or vessel will help people who do drink and drive think twice and be more responsible and not do so. There are people in my community who have killed and injured their own children drunk driving, walking free with bare minimum consequences. It's not fair to the victims, the families and more than likely, they will do it again, causing yet another untimely death. We have to take more action and hold these offenders accountable.

Thank you for taking the time out to read my letter.

Sincerely,

Dana Goldsby

Maryland Judicial Proceeding  
Committee.

I Crystal Duckett am writing this letter hoping that you all would take the maximum penalty into consideration with imprisonment of manslaughter to 20 years.

On July 9 2022, there was an accident where I resided at on willows road. My son has to be at work at 6am as he is approaching the stop sign in the neighborhood he noticed the accident. He then texted me "Mom there's an accident you might be late because they blocked the road. I replied "okay let me call the job" The morning is going along im getting ready for work as im headed out the roads were clear enough for me to proceed. As i get to get work i have two missed calls from my brother John Duckett Jamari's Dad. I called back shelly answers the phone and said Crystal its Jamari he's been in a car accident I dropped everything. Im headed to the hospital I get there family, friends coworkers are in the waiting room Devastated. I look at my brother he's completely lost. Everyone got to see Jamari talking to him telling him how much he's loved

**IMG\_5712.pdf**

Uploaded by: John Duckett

Position: FAV

and we are all here with him, hoping  
and praying he hears us. Doctors telling us  
US JUST PRAY. Jamarri had to be transported  
to Washington hospital for another procedure.  
Once again hoping and praying for change.

July 10 Jamarri's Death Day a day  
I will never forget Hurt, Pain, Damage,  
Change. How could a person take someone  
Life and only get 10 years that's a slap  
on the wrist. My nephew still had his  
Life in front of him so young just got  
a manager position. Graduated he had  
drive, was always smiling and there  
whenever you needed him. Good personality  
Respectful and always had a good heart.

In conclusion of this letter my family  
and I are asking that with the kindness  
of you hearts to place Jamarri's Law in  
Enactment. This helps to prevent others  
from driving under the influence and  
increase maximum penalties.

Thank you for taking the time to  
Read my letter.

Crystal Buckett

Dear Maryland Judicial Proceedings Committee,

I am writing this letter in hopes that you all will take my letter into consideration of increasing the maximum penalty of imprisonment for manslaughter by vehicle or vessel to 20 years.

In July of 2022, our family lost a smart, loving, caring and peaceful soul by the name of Jamari Tyrese Duckett. Jamari always kept a beautiful and bright smile on his face.

This tragic loss of Jamari has affected our family and the community so much and in many different ways. We all miss Jamari daily. Jamari was a family oriented person, a hard worker, a very intelligent kid and most importantly very supportive when it came to his siblings.

In conclusion of this letter, our family is asking that you find it in your heart to place Jamari's law in enactment. This law would help prevent others from driving while under the influence due to the increase of the maximum penalties.

Thank you for taking the time to read my letter.

Respectfully,  
Mieke N. Stewart

# **HB 977 - Wicomico Favorable.pdf**

Uploaded by: Lauren Bourdon

Position: FAV

**JAMIE L. DYKES**  
STATE'S ATTORNEY

**Date:** February 17, 2025  
**Bill:** HB 977  
**Position:** Favorable

I distinctly remember my first encounter with grief. I was about 12 or 13 years old when a very dear friend of mine was killed coming home from soccer practice by a multiple time DUI offender who was driving drunk. He was sentenced to a mere 3 years of prison for extinguishing my friend's life, and erasing her potential from this world.

I remember, even at that age, asking my mom why her life wasn't worth more?

Now, more than twenty years later, I find myself continuing to struggle for an answer to that same question.

I have the privilege of prosecuting some of Wicomico County's most violent offenses, including the fatal motor vehicle collisions. But the only time I have ever had a victim ask me why their loved one's life was not worth more was in relation to manslaughter by motor vehicle cases.

You see, these cases are a great equalizer. They show no prejudice in that you or your loved one may find yourself a victim regardless of your gender, race, creed, religion, or how "good of a life you live." And with Maryland law, as we sit today, you and your loved one's life is worth the equivalent of about 2 years.

As what happened in my last case shows, you or your loved one can be driving home in a perfectly illuminated vehicle, driving at the correct speed limit, coming home from work when you are struck from behind by someone driving 100 mph, by a person too thoughtless, careless, and reckless to open the app on his phone and take an Uber home. On July 12, 2022, four hard working Haitian immigrants were driving home from working the overnight shift at a local chicken plant. They worked there to provide the necessities for survival, and with the hope for a better life for their children.

A college student had been working at a bar in Ocean City, and decided to drink after his shift – on his way back to Salisbury, driving in excess of 100 mph, he ran into the back of their vehicle, sending it careening into a tree. He killed two of the four occupants.

Prosecutors and courts in these cases must consider not only punishment and deterrence, but also what measures needed to be in place for public safety and rehabilitation, such as supervised probation with alcohol monitoring for an extended period of time. This defendant was ultimately sentenced the top of the sentencing guidelines – 20 years, with eight to be served and the balance suspended.

When I first met with one of the victim’s daughters, she was understanding and satisfied with an eight-year sentence. But as I explained to her about parole eligibility and that this is not considered a crime of violence, she became justifiably angry.

It was offensive to her that her mother’s preventable and violent death was not considered a “violent crime” in the eyes of the law, and that the defendant will be parole eligible after having served only 25% of his sentence. Even if the defendant were to have been sentenced to the maximum, 20 years for two deaths, he would be eligible for release on parole in a mere five years, but this would not provide the necessary supervision following his release to ensure our community’s safety.

The victim’s daughter was the same age as the defendant. Her mother worked overnight so that she could attend college. Because of her mother’s death, she had to drop out of college and now works at that same chicken plant in order to care for her toddler sibling. Every night she drives by the spot her mother was needlessly taken from her.

The death of her mother, and the death of her future, felt minimized because the crime was not labeled a violent crime. I am asking you to support the necessary changes to these laws so that we can achieve all of the purposes of sentencing – so that our community is safer, and so that our victims feel some sense of justice.

The only way to protect the public is to reduce the number of drunk drivers on the road. The way we reduce the number of drunk drivers on the road is by deterrence.

A sentence that permits release on parole after two years is not deterrence.

By giving the courts more time to utilize at sentencing, you are also allowing the court to have more leeway for the important work of rehabilitation, to help ensure the continued safety of all Marylanders.

Public safety doesn’t sit solely on the shoulder of police officers, prosecutors, and judges. Today, this important question sits with you.

I am asking you, personally and on behalf of the Office of the State’s Attorney for Wicomico County, to please support enhanced penalties so that we can do the important work of making our roadways safer, and so that the next time I have to sit across the table from an innocent victim’s family, I don’t have to answer the terrible question: why wasn’t their life worth more?

Thank you

Lauren N. Bourdon, Esq.  
Senior Assistant State’s Attorney

## HB0977 Witness Testimony

My name is Nancy Szewczyk and I reside at 21949 Barkentine Ct., Great Mills, MD 20534. I can be contacted at 240.298.9613 or [nancyszewczyk@icloud.com](mailto:nancyszewczyk@icloud.com). I am submitting this testimony in **FAVOR** of HB0977, Jamari's Law.

I wish to thank Delegate Brian Crosby for sponsoring the House Bill and Senator Jack Bailey for sponsoring the Senate Bill of Jamari's Law. I have been a MD resident my entire life and member of the St. Mary's County community since 1995. I am a wife and a mother of three (3) daughter's all of whom were born and raised in St. Mary's County MD. I am the daughter of a law enforcement officer and raised to abide by the law and believe if the law is broken our justice system would provide the proper penalty. However, as I have come to witness that is not always the case. There are times when the punishment of the applicable law does not fit the severity of the crime as we find in the law for vehicular manslaughter where the maximum penalty is 10 years in MD allowing for an offender to be eligible for parole after only serving two and a half (2.5) years.

On the morning of July 9, 2022 my friend John Duckett's son Jamari at the age of 18 was the victim of vehicular manslaughter. It was not a nonviolent accident it was a horrific violent crime committed with a vehicle as a weapon. I had become friends with John and Jamari as the father and son worked side by side in a local diner my husband and I visit regularly. Jamari was a fixture working there and always greeting everyone that came through the doors with his big infectious smile. In regularly seeing and conversing with Jamari I formed a friendship with this aspiring young man. I became invested in him and the bright future he had before him. He had just graduated high school and was preparing to attend college to become a mechanical engineer. He was working two jobs. He worked at the diner and at the Sheetz convenience store saving up money for his college expenses. He was a wonderful young man whom we loved and adored with a promising future ahead of him. When I learned of his tragic passing it was excruciatingly heart breaking. Then I learned that our justice system categorizes this crime as vehicular manslaughter because it was committed using a car as the weapon and knowing the maximum penalty achievable was only 10 years brought such feelings of injustice. It shook my faith in this justice system I so firmly have believed in my whole life. Knowing the man who killed Jamari was driving while under the influence which is a crime in our state, so he knowingly and intentionally ignored the law. He was driving 90mph and literally drove his truck up over and onto Jamari's car causing such horrific injury to Jamari that Jamari lost his life. The law states that causing death with a vehicle is manslaughter a nonviolent crime presumably accidental in nature. However, Jamari's death was violent and truly NOT accidental once the choice was made to drive impaired. Therefore, to truly impart proper justice in cases like Jamari's there needs to be an increase in the maximum penalty. Increasing the maximum penalty would provide proper punishment and accountability for driving while impaired and taking a life rather than calling a friend or an uber for a ride. It would also allow time for possible rehabilitation and provide more deterrence. If this bill was law back on July 9, 2022 and the maximum penalty was 20 years and 30 years for subsequent conviction it may have deterred his offender from driving that night and Jamari might still be with us today working on his mechanical engineering degree and greeting everyone at the diner with his infectious smile, making our world a better place. However, if his offender was not deterred then at least Jamari's family and friends could have received true justice with an appropriate punishment for the crime.

I fully am in favor of HB0977 to allow for proper justice for vehicular manslaughter in MD. Making this bill a law can help make our State a safer place to raise a family and when this law is not abided by it will make the punishment more befitting of the crime restoring the communities' and my faith in our justice system. I respectfully urge this committee to return a favorable report on HB0977.

Testimony in SUPPORT of SB 977/HB 1431

State and Local Agencies - Enforcement of Federal Immigration Law - Restrictions on Access to Information (Maryland Data Privacy Act)

Senate Judiciary Proceedings Committee OR House Judiciary Committee

February 19, 2025

SB: Dear Honorable Chair Smith, Vice Chair Waldstreicher, and Members of the Committee,

HB: Dear Honorable Chair Clippinger, Vice Chair Bartlett, and Members of the Committee,

Pam Stuckey, RN, BSN is pleased to offer a favorable testimony in strong support of SB 977 / HB 1431- State and Local Agencies - Enforcement of Federal Immigration Law - Restrictions on Access to Information (Maryland Data Privacy Act)

I am a retired nurse who has also been involved in supporting immigrants and their communities for many years. As someone very familiar with the health care system and more importantly familiar with communicating with patients and ... more importantly knowing before I ever even entered Nursing School but certainly ascribed to after becoming a nurse ... the safety and security of every patient is THE priority AND their health is dependent on the degree of emotional security and respect they feel and experience within the health care system. Immigrants, regardless of their status, deserve the same safety and security as every, regardless of their status. I know as a nurse that my success as a nurse was dependent on the degree of trust each patient had in what I said and did. And I know if immigrants feel that they will put themselves at risk by reaching out to the health care system they will then put their health at greater risk.

In recent years, the erosion of data privacy protections has led to increased fear and uncertainty within immigrant communities. The Maryland Data Privacy Act SB 977 /HB 1431 takes critical steps to restore trust by ensuring that state and local agencies, as well as law enforcement entities, are prohibited from sharing personal information, facial recognition data, and access to public facilities with federal immigration authorities unless a valid warrant is presented.

I do not want to see people who are already stressed and vulnerable experience more fear. This is contrary to my ethics as a nurse and to the values of the health care system.

I stand with immigrant communities and supports the Maryland Data Privacy Act because it will:

**Limit Access to Databases and Facilities:** Law enforcement agencies and state or local government units must deny access to sensitive data and facilities to individuals seeking to enforce federal immigration law without a valid court-issued warrant.

**Protect Personal Information:** The Act prohibits the disclosure of personal data, photographs, and biometric information, such as facial recognition scans, to federal immigration authorities unless due legal processes are followed.

**Provide Accountability and Transparency:** Agencies must maintain records of all access requests and submit annual reports to the Attorney General and the General Assembly to ensure compliance and transparency.

Ensure Enforcement and Penalties: The Attorney General is empowered to enforce these protections, with civil penalties for violations and disciplinary actions for state employees who fail to comply.

This legislation is crucial not only for protecting the privacy of all Maryland residents but also for fostering trust between immigrant communities and public institutions. By clearly delineating the boundaries of federal immigration enforcement within our state, we promote the values of dignity, safety, and fairness.

In 2021, this legislature took action to protect immigrants and safeguard their sensitive data. ORG, once again calls on this legislature to act.

I/ORGANIZATION urges the committee to provide a favorable report on SB 977/HB 1431.

President

Steven I. Kroll  
Coordinator

**DATE:** February 17, 2025

**BILL NUMBER:** HB 977

**POSITION:** Favorable

The Maryland State's Attorneys' Association (MSAA) supports House Bill 977 – Jamari's Law – and urges this Committee to issue a favorable report.

Jamari's Law remedies a startling injustice that exists in Maryland law, one that trivializes the killing of another if caused by grossly negligent conduct behind the wheel of an automobile, by increasing the maximum penalties available to a sentencing court. The urgent need for this legislation was recognized last session when it was passed by the Senate, not just with bipartisan support but unanimously.

Grossly negligent manslaughter by motor vehicle requires the State to prove that a defendant has engaged in conduct that is of extreme or outrageous character and evinces a wanton or reckless disregard for human life – this is conduct that truly shocks the conscience, and is so far removed from the realm of ordinary civil negligence. Reported opinions discussing this offense examine scenarios like street racing in and out of traffic at speeds exceeding 100 miles per hour,<sup>1</sup> or a particularly tragic case in which a driver struck a pedestrian pushing a stroller with her three-year-old grandchild, and then dragged that stroller for another half mile.<sup>2</sup>

When viewed in light of the extreme conduct required to support a conviction, the current maximum penalty for grossly negligent manslaughter by motor vehicle – ten years – is plainly inadequate, particularly because it is considered “nonviolent” for the purposes of parole eligibility, meaning that individuals convicted of this offense become eligible for release on parole after having served only 25% of their sentence. Treating this offense like misdemeanor assault (a crime which requires proof only of a harmful or offensive physical contact but carries an identical maximum penalty) or burglary of a storehouse (which not only carries a more severe maximum penalty, but is also treated as a violent crime for the purposes of parole eligibility, requiring service of 50% of the sentence before consideration for release) is insulting to families of victims after they've lost their loved one in a preventable and senseless tragedy.

When a jury finds beyond a reasonable doubt that a defendant has engaged in conduct that constitutes grossly negligent manslaughter by motor vehicle, courts need more in order to fashion a sentence that more closely approximates justice; MSAA is again urging this Committee's support for this critical bill.

Uploaded by: Hannibal Kemerer

Position: UNF

**POSITION ON PROPOSED LEGISLATION**

**BILL: House Bill 977 – Criminal Law – Manslaughter by Vehicle or Vessel – Increased Penalties (Jamari’s Law)**

**FROM: Maryland Office of the Public Defender**

**POSITION: Unfavorable**

**DATE: 02/19/2025**

The Maryland Office of the Public Defender respectfully requests that the Judiciary Committee issue an unfavorable report on House Bill 977.

House Bill 977 *doubles* the statutory maximum penalty for a first conviction for manslaughter by vehicle by increasing the penalty from 10 to 20 years, and for a second, subsequent, conviction the bill *doubles* the penalty from 15 to 30 years.

Under existing law, prosecutors can charge someone with vehicular homicide if they drove in a manner that was “grossly negligent” and killed someone. See, e.g., *State v. Kramer*, 318 Md. 576, 590 (1990) (collecting cases). So, an alleged perpetrator need not have intended to kill, need not have planned to kill, and need not have acted with malice aforethought to be convicted. Yet, under current law, someone may be sentenced to 10 years for a first offense and 15 years for a second, successive, offense. Even granting, for present purposes, that statutory maximum sentences are seldom served in their entirety, it is difficult to conceive of the societal value (e.g. deterrence or retribution) served by doubling the potential period of incarceration someone might be sentenced to for *accidentally* causing the death of another.

**For these reasons, the Maryland Office of the Public Defender urges this Committee to issue an unfavorable report on HB 977.**
