

Greetings,

As a women who was a student athlete. A women who benefited greatly from what my Athletic ability (my gift) gave me in opportunities in life. As a women born and raised in Maryland. As a women with learning disabilities but didn't play the victim one time in my life. I cannot believe what this this state has become for our current women/young women athletes. You claimed to care about ALL and you claim to leave "no one behind " BUT - I now will make my own claims from my own opinion of this super Marjory of democrats ( unfortunately ) . The fact you all would even fight a bill like this shows you all are just politicians that do not look out for your people. ALLLLLLLLLL of you need to be researched and looked into as to why you are representing your people in the first place.

I am completely in favor of BILL HB0156 – Fairness in women sports – Not only for safety because as a elite women athlete I know I could beat many males on sports BUT because women deserve equal opportunities and we should not be moving backwards.

Thanks,

Melissa Idleman.
