

In support of [SB633](#)/[HB906](#), Scam PACs

As a constituent, I favor this potential legislation because we deserve truth and justice as the American way. Liars should have no place in our political system, and that includes raising money, raising awareness for a “cause,” and disguising their aims, officers, and so on.

Voters and residents deserve better than being preyed on, and it shouldn't take legislation to suppress bad actors. But here we are, so I support this bill to help ensure that we can keep bad actors out of the process and go after any who get through.
