

Dear Senator Feldman,

My Name is Hannah Carey and I am a family friend of the Wieners. Losing Jillian and Lindsay was the most devastating and heartbreaking thing to witness and this bill could prevent other horrible tragedies from occurring. I fully support this safety act and hope that it can help prevent other families from having to experience this type of loss.

Protecting others against senseless accidents is important and passing this is a tangible step towards making that a reality.

Thank you for your time and I hope you see how this fire safety act could improve the lives of people living in and visiting Maryland.

Sincerely,
Hannah Carey
