FAVORABLE for HB0393

Cancer is so prevalent these days and one of the most used treatments, chemo, has one of the most dreaded side effects, hair loss. Scalp cooling systems have the possibility to alleviate hair loss and thereby reduce greatly this depressing and stressful side effect.

Anything we can do to help our family, friends and neighbors weather the dreaded side effect of hair loss is a WIN for those battling cancer.

Please cast a **FAVORABLE** vote for HB0393 for this treatment to be **fully covered by insurance without additional cost** to these suffering individuals.
