

Dear Members of the Judicial Proceedings Committee,

This testimony is being submitted in collaboration with Showing Up for Racial Justice Baltimore and Out For Justice. I am a resident of District 46, a community leader in Canton, and a workforce development professional working in service to the City of Baltimore. I feel passionately that children are different than adults, that imprisonment is damaging both to the child and the community, and that Rec Centers, after-school supports, and youth employment programs are far more effective solutions to youth crime for our leaders to fund than anything the criminal justice system can devise. **I am testifying in support of SB0323, the Youth Charging Reform Act.**

SB323 would end the practice of charging 14- and 15-year-old children as adults, and ensure that only 16- and 17-year-olds accused of the most serious crimes, such as rape and murder, are charged in adult court.

Unfortunately, after more than a century of progress in juvenile justice, in the 1990s Maryland reversed course and began to pass laws purporting to be “tougher” on youth crime, including requiring many charges against minors to be prosecuted in adult court by default.¹ Maryland, once progressive in its view of youth crime, is now a national outlier in its practice of automatically charging young people as if they were adults. Per capita, we send more young people to adult court based on offense type than every other state but Alabama.² Additionally, the current system disproportionately affects Black youth, as nearly 80% of Maryland youth charged in adult court are Black.³

The practice of charging children as adults is inhumane. It is also economically wasteful, as the vast majority of these cases are either transferred to juvenile court or dismissed.⁴ Finally, it does not even do what it is intended to do, since statistics indicate that automatic charging of youth as adults does not decrease youth crime generally or reduce recidivism by the youth so charged.⁵ By significantly decreasing the automatic charging of youth as adults, we can bring Maryland more into line with modern juvenile justice standards, redirect resources to treating rather than simply imprisoning young offenders, and ultimately improve the safety of our communities by preventing re-offending. It is for these reasons that I am encouraging you to vote **in support of SB0323, the Youth Charging Reform Act.**

Thank you for your time, service, and consideration.

Sincerely,

John Preston Ford

529 S East Ave, Baltimore, MD 21224
