

HB 875 Public Safety – Distribution of Literature to Purchasers of Firearms and Ammunition

I have read this bill and have a couple questions. 1st who is going to pay for this – the State is way over budget currently. 2nd What exactly does the Health department know about Firearms Safety and Firearms training?

Leave training to the professionals and don't cause more of the budget to be stretched.

Please do not waste Taxpayers dollars trying to do this. It is forced speech to require people to provide literature to the people who purchase items from them.

I ask for an unfavorable report on the bill.
