Where It Goes:

MMIS: Medicaid Management Information System II

Note: For the purpose of this chart, fee-for-service community behavioral health expenditures for Medicaid recipients are shown under the Behavioral Health Administration as opposed to Medicaid where they are budgeted. Includes fiscal 2016 deficiencies and planned reversions as well as fiscal 2017 back of the bill reductions. Fiscal 2016 and 2017 data includes funding for the Senior Prescription Drug Assistance Program, which is being transferred to the Department of Health and Mental Hygiene in fiscal 2017. Numbers may not sum to total due to rounding.

<sup>&</sup>lt;sup>1</sup> Effective January 1, 2014, the Primary Adult Care program ended and recipients became eligible for full Medicaid benefits under the Medicaid expansion option provided in the federal Affordable Care Act.

<sup>&</sup>lt;sup>2</sup> Residential services include community residential services and individual family care. Day services include activities during normal working hours such as day habilitation services, supported employment, and summer programs. Support services include individual and family support, Community Supported Living Arrangements, and self-directed services.

<sup>&</sup>lt;sup>3</sup> The Developmental Disabilities Administration data includes secure evaluation and therapeutic treatment center units.

#### Issues

## 1. Cigarette Restitution Fund: Ongoing Litigation Has Significant Impact on Fiscal 2016 and 2017 Budget

#### **Background**

The Cigarette Restitution Fund (CRF) was established by Chapters 172 and 173 of 1999 and is supported by payments made under the Master Settlement Agreement (MSA). Through the MSA, the settling manufacturers pay the litigating parties – 46 states (Florida, Minnesota, Mississippi, and Texas had previously settled litigation), five territories, and the District of Columbia – substantial annual payments in perpetuity as well as conform to a number of restrictions on marketing to youth and the general public.

The distribution of MSA funds among the states is determined by formula, with Maryland receiving 2.26% of MSA monies, which are adjusted for inflation, volume, and prior settlements. In addition, the State collects 3.3% of monies from the Strategic Contribution Fund, distributed according to each state's contribution toward resolution of the state lawsuits against the major tobacco manufacturers.

The use of the CRF is restricted by statute. Activities funded through the CRF in fiscal 2015 include the Tobacco Use Prevention and Cessation Program; the Cancer Prevention, Education, Screening, and Treatment Program; substance abuse treatment and prevention; the Breast and Cervical Cancer Program; Medicaid; tobacco production alternatives; legal activities; and nonpublic school textbooks.

#### The Nonparticipating Manufacturer Adjustment

One of the conditions of the MSA was that the states take steps toward creating a more "level playing field" between participating manufacturers (PM) to the MSA (and thus subject to annual payments and other restrictions) and nonparticipating manufacturers (NPM) to the agreement. This condition is enforced through another adjustment to the states' annual payments, the NPM adjustment. The PMs have long contended that the NPMs have avoided or exploited loopholes in state laws that give them a competitive advantage in the pricing of their products. If certain conditions are met, the MSA provides a downward adjustment to the contribution made by PMs based on their MSA-defined market share loss multiplied by three. This adjustment is known as an NPM adjustment. The agreement also allows PMs to pursue this adjustment on an annual basis.

Under the MSA, PMs have to show three things in order to prevail and reduce their MSA payments:

• a demonstrable loss of market share of over approximately 2%;

- that the MSA was a significant factor contributing to that loss of market share; and
- a state was not diligently enforcing its qualifying statute.

The qualifying statute is intended to create a more level playing field with regard to the price between the PMs and the NPMs. Originally included in the MSA as a model statute, Maryland's qualifying statute was enacted in 1999 (Chapter 169), with subsequent revisions in the 2001 and 2004 sessions.

As shown in **Exhibit 1**, litigation regarding the NPM adjustment started in 2005, beginning with the NPM adjustment for sales year 2003. Arbitration regarding the "diligent enforcement" issue for 2003 commenced in July 2010. As further shown in the exhibit, Maryland was 1 of 15 states that did not settle with the PMs during the arbitration process and was 1 of 6 states that were found to not have diligently enforced its qualifying statute. Among the findings made by the arbitration panel were that Maryland lacked dedicated and trained personnel to conduct enforcement efforts and that the Comptroller's office, in particular, failed to meaningfully participate in enforcement efforts.

#### Exhibit 1 Nonparticipating Manufacturer Litigation Timeline

| <u>Date</u>           | <u>Item</u>   |
|-----------------------|---|
| April 2004            | PMs give notice to state attorneys general that they were pursuing an NPM adjustment with respect to a loss of market share in sales year 2003. A similar adjustment is sought for subsequent sales years. The PMs may place that portion of their annual payments they believe should be reduced under this process into an escrow account. Some PMs elect to do this, reducing the funding available to the states in any given year. |
| March 2006            | An economic firm rules for PMs that MSA participation was a significant factor in the PMs' market share loss, which had previously been calculated by the MSA Independent Auditor. Similar rulings are made for subsequent sales years.   |
| April 2006            | Additional PMs place disputed payments related to 2003 NPM Adjustment into escrow account.  |
| Calendar<br>2006-2009 | Maryland (like many other states) argues that the issue of whether it diligently enforced its Qualifying Statute should be made in State courts. The PMs prevail in that the diligent enforcement issue is subject to the MSA's arbitration clause.   |
| January 2009          | Most states sign an agreement to enter into arbitration. The agreement includes a 20% refund of the liability of each joining state that is eventually determined to not have diligently enforced.  |
| July 2010             | Arbitration proceedings begin for 46 states, the District of Columbia, and various territories.   |
| November 2011         | PMs file statements of contest against all but 15 states in the arbitration.  |

| <u>Date</u>     | <u>Item</u>  |
|-----------------|--|
| March-June 2013 | Twenty other states and the District of Columbia enter into a settlement agreement with the PMs – leaving 15 states, including Maryland, to proceed with arbitration.  |
| September 2013  | Six states (Indiana, Kentucky, Maryland, Missouri, New Mexico, and Pennsylvania) are determined to not have diligently enforced their qualifying statute for sales year 2003. These states not only lose payments from PMs that have been held in escrow for that sales year, but also see a reduction in their future MSA payments for the states that are found to have diligently enforced their qualifying statutes. In addition to the \$16 million placed in escrow for that sales year, and after the 20% refund resulting from entering into arbitration, Maryland sees a reduction in its April 2014 MSA payment of \$67 million. |
| November 2013   | Maryland petitions the Baltimore City Circuit Court to vacate the arbitration award finding that Maryland did not diligently enforce its qualifying statute during 2003 as well as the arbitration panel's judgment reduction.   |
| February 2014   | A hearing is held in Baltimore City Circuit Court. Supplemental briefs are filed by both sides in March through May 2014.  |
| July 2014       | The Baltimore City Circuit Court denies Maryland's petitions.  |
| August 2014     | Maryland appeals the Baltimore City Circuit Court's decision to the Maryland Court of Special Appeals.   |
| October 2015    | The Court of Special Appeals finds that arbitration panel's judgement reduction was incorrect, resulting in a payment back to Maryland of approximately \$40 million from the original \$67 million reduction from April 2014. Meanwhile, arbitration regarding Maryland's diligent enforcement during sales year 2004 is expected to begin within calendar 2017.  |

MSA: Master Settlement Agreement NPM: nonparticipating manufacturer PM: participating manufacturer

Source: Office of the Attorney General; 2003 NPM Adjustment Arbitration Ruling, September 2013; Department of

Legislative Services

As also noted in the exhibit, Maryland not only forfeited \$16 million that the PMs placed in escrow for the 2003 sales year, but under the MSA arbitration framework, also saw its fiscal 2014 payment reduced by \$67 million based on the arbitration panel's assessment that those states which settled before arbitration could not be found as non-diligent. Thus, Maryland was found to be amongst a small handful of states that would have to cover the entire cost of the 2003 NPM settlement payment. In October 2015, the Maryland Court of Special Appeals determined that the arbitration panel erred in calculating Maryland's 2003 NPM adjustment liability, which could result in \$50 million in relief within the fiscal 2016 budget, \$40 million of which is already included in the current working appropriation for Medicaid. However, a *writ of certiorari* has been filed by the PMs with the Maryland Court of Appeals, who have yet to decide if they will now take up the decision.

#### Beyond the 2003 Sales Year

The NPM adjustment is in dispute for future years; thus, unless it is settled or Maryland's diligence is not contested, there will be future arbitrations assessing Maryland's enforcement for future years. It is worth noting that although the arbitration ruling found that Maryland was not diligent in enforcing its qualifying statute in the 2003 sales year, the ruling also notes that the State did take actions to position it "well for diligent enforcement in 2004." Data regarding the extent of noncompliant packs of cigarettes, NPM escrowing, and enforcement efforts support this comment not only for the 2004 sales year but also subsequent years.

Those states that did settle with the PMs realized a one-time cash windfall with the release of funds from disputed payments escrow accounts for sales years 2003 through 2012. However, under the terms of the settlement, the PMs were given credit for future payments from those states (*i.e.*, reducing the payments to those states), and those states had to enact new legislation and will be held to an enhanced standard in NPM adjustment disputes beginning in 2015.

The PMs have sought a multistate arbitration related to sales year 2004 for Maryland and those other states that did not settle the 2003 sales year litigation. Arbitration regarding Maryland's diligent enforcement during sales year 2004 is expected to begin within calendar 2017. Further, for each disputed year since 2004, an amount has been withheld and deposited into a disputed payments account. If the State were to be found to have diligently enforced the statute in subsequent years, a potential total of \$120 million could be realized in revenue from the disputed payments account.

#### Fiscal 2015-2017 CRF Programmatic Support

**Exhibit 2** provides CRF revenue and expenditure detail for fiscal 2015 to 2017.

# Exhibit 2 Cigarette Restitution Fund Budget Fiscal 2015-2017 (\$ in Millions)

|   | <b>2015 Actual</b> | 2016 Working | 2017 Allowance |
|---|--------------------|--------------|----------------|

NPM: nonparticipating manufacturer

Note: Numbers may not sum to total due to rounding.

Source: Department of Legislative Services; Department of Budget and Management

The largest change for fiscal 2016 is in the revenue assumption related to the nonparticipating manufacturer litigation previously discussed. The revenue assumption related to the payback from the State's successful appeal of the prior arbitration ruling should result in a \$50 million increase in revenue for fiscal 2016, which is higher than the anticipated increase of \$40 million last year. However, with no significant increases in spending for fiscal 2016, other than \$2 million for Synar-related tobacco

<sup>&</sup>lt;sup>1</sup> The NPM adjustment represents the bulk of this total adjustment.

<sup>&</sup>lt;sup>2</sup>Other adjustments include the strategic contribution payments and the National Arbitration Panel Award.

<sup>&</sup>lt;sup>3</sup>The working appropriation includes \$4 million of Cigarette Restitution Funds in Medicaid withheld for additional support for nonpublic schools. In this exhibit, that funding is assumed not to be spent and falls to balance.

prevention activities, which is consistent with the intent of the General Assembly, these increased revenues flow through to the fund balance for fiscal 2016.

For fiscal 2017, CRF support is anticipated to remain similar to fiscal 2016, minus the one-time tobacco enforcement payment. Without that one-time funding, Medicaid expenditures decrease significantly in fiscal 2017. All other expenditures for fiscal 2017 are relatively the same as they were in fiscal 2016, with the exception of one new program receiving CRF support. The fiscal 2017 allowance contains \$5 million for Student Assistance Organization Business Entity Grants. With this new funding, the projected ending fund balance for CRF at the end of fiscal 2017 is currently \$11.9 million.
