FISCAL NOTE

House Bill 878 (Prince George's County Delegation)
Appropriations

Prince George's County Sheriff's Office - Collective Bargaining
PG 318-96

This bill expands the scope of bargaining for full-time civilian and nonprobationary commissioned employees of the Prince George's County Sheriff's Office by providing that these employees have the right to bargain collectively over hours and other terms and conditions of employment. The bill recognizes the Sheriff as the "employer" for all collective bargaining issues related to hours and other terms and conditions of employment and the County Executive as the "employer" for matters related to compensation and fringe benefits.

Fiscal Summary

State Effect: None. This bill would not affect State operations or funding.

Local Effect: Prince George's County expenditures could increase by a significant but indeterminate amount. Local revenues would not be affected. **This bill imposes a mandate on a unit of local government.**

Fiscal Analysis

Local Expenditures: Expanding the scope of bargaining would not significantly impact the county's costs for negotiating a collective bargaining agreement. However, it could increase the number of employee grievance disputes filed and the county could expend additional resources to resolve those dispute. Prince George's County Sheriff's Office advises that only 250 employees would be affected by this bill and that employee grievance disputes are handled by the county's Personnel Board. Therefore, the Department of Fiscal Services estimates that any increase in expenditures to resolve employee grievance disputes would be minimal.

In addition, county expenditures could increase if the contract agreement, as negotiated with the employee organization, alters the existing hours and terms and conditions of employment in a manner that favors employees rather than management. For example, if the negotiated contract agreement requires the county to purchase additional safety equipment or to increase the number of employees assigned to a particular duty, then county expenditures would increase significantly.

One cent on Prince George's County property tax rate yields approximately \$1.7 million in fiscal 1997. Since the fiscal impact of the bill is indeterminate, the impact on the county's property tax rate is also indeterminate.
