19 **Article - State Finance and Procurement**

21 (a) (1) Before issuing a request for proposals for an energy performance
22 contract, a primary procurement unit shall consult with the Maryland Energy

24 (2) The Maryland Energy Administration shall review the proposed request
25 to ensure that it meets with the State energy standards, PRESERVES THE STATE'S
26 FLEXIBILITY TO INVESTIGATE AND USE ECONOMICALLY JUSTIFIABLE NEW
27 TECHNOLOGIES, and is in conformance with the unit's energy conservation plan that has
28 been developed in accordance with § 4-806 of this article.

29 (b) (1) Notwithstanding any other provision of law and subject to the approval
30 and control of the Board of Public Works, a primary procurement unit of State

2

1 government is authorized to enter into energy performance contracts of up to [12] 25
2 years duration.

3 (2) The payments and the total contract amount due under an energy
4 performance contract may not exceed the actual energy savings realized as a result of the
5 contract's performance.

6 (3) (i) Before approval of an energy performance contract, the Board:

7 1. shall ensure that the projected annual energy savings
8 attributable to the project will exceed the projected annual payments to the contractor
9 under the contract; AND

25 12-302.

26 The Maryland Energy Administration shall be responsible for monitoring the status
27 of active energy performance contracts and reporting that status to the Board annually.

28 12-303.

29 The Board may modify or waive any authorization, source selection, solicitation, or
