Fiscal Analysis

State Expenditures: The State is responsible for making the retirement contributions for the Baltimore City Sheriff. Based on the State's fiscal 1998 employer's contribution rate of 8.21% of salary, expenditures would increase by \$246 in fiscal 1999; \$575 in fiscal 2000; \$780 in fiscal 2001; \$1,026 in fiscal 2002; and \$1,149 annually thereafter. Actual increases will depend upon the contribution rate in effect for any given year.

Local Effect: Under existing law, the Baltimore City Sheriff's salary is \$56,000 annually, excluding fringe benefits. On a fiscal year basis, this corresponds to a salary and fringe benefits of \$61,600 annually, reflecting fringe benefits at 10% of salaries. The bill increases the salary incrementally over the next several calendar years. Beginning in calendar 2002, the salary would be fixed at \$70,000 annually. Since the salaries are based on calendar years, the out-year fiscal impact would reflect salary increases covering two calendar years. As a result, expenditures would increase by \$3,300 in fiscal 1999. This estimate reflects the salary increase for six months and fringe benefits at 10% of the salary. Future expenditure increases would be \$7,700 in fiscal 2000; \$10,450 in fiscal 2001; and \$13,750 in fiscal 2002. Beginning in fiscal 2003, expenditures would increase by \$15,400 annually over fiscal 1998 levels, reflecting the additional salary increase and fringe benefits.
