22 Health Care Decision Making Forms

23 The following forms allow you to make some decisions about future health care
24 issues. Form I, called a "Living Will", allows you to make decisions about
25 life-sustaining procedures if, in the future, your death from a terminal condition is
26 imminent despite the application of life-sustaining procedures or you are in a
27 persistent vegetative state. Form II, called an "Advance Directive", allows you to
28 select a health care agent, give health care instructions, or both. If you use the
29 advance directive, you can make decisions about life-sustaining procedures in the
30 event of terminal condition, persistent vegetative state, or end-stage condition. You
31 can also use the advance directive to make any other health care decisions.

32 These forms are intended to be guides. You can use one form or both, and you
33 may complete all or only part of the forms that you use. Different forms may also be
34 used.

35 Please note: if you decide to select a health care agent that person may not be a
36 witness to your advance directive. Also, at least one of your witnesses may not be a
37 person who may financially benefit by reason of your death.
