~~Preamble~~

~~WHEREAS, Over the last 25 years, Maryland's health care regulatory system has evolved incrementally to address differing issues at different times; and~~

~~WHEREAS, As a result, the health care regulatory system today in Maryland is a highly complex structure that needs to be reevaluated, streamlined, and better coordinated to reflect the changed health care environment; and~~

~~WHEREAS, The current health care regulatory system consists of five independent entities: the State Health Resources Planning Commission, the Health Services Cost Review Commission, the Health Care Access and Cost Commission, the Department of Health and Mental Hygiene, and the Maryland Insurance Administration; and~~

~~WHEREAS, As a result of being regulated by these five independent entities, the health care regulatory system that has developed in Maryland is one that lacks coordination, contains functions that are outdated in today's environment, and lacks a focus on improving quality of care; and~~

~~WHEREAS, To address these problems, the current health care regulatory system must be streamlined; and~~

~~WHEREAS, Under a streamlined health care regulatory system, a single State health policy can be better articulated, coordinated, and implemented and will only serve to benefit the citizens of Maryland; now, therefore,~~
